I'm working on a project that has different parts, some of which take 60 minutes, some parts take 1 minute, and others take 30 seconds. I'd like to be able to mark parts that take 60 minutes as a time span, and mark parts that take 30 seconds as a number like 20. Which data type should I use for this? A: Use a datetime (with timezone) as the units and set
