Installation was smooth and straightforward Right after installation, SFF Viewer was ready to work, and the software shows a blue frame to welcome new users. During testing, SFF Viewer appeared in the taskbar. SFF Viewer was designed and produced on a tight budget, thus there is no picture or message appearing in the window's title bar. It is represented as a small black logo at the top left. There is a small toolbar at the bottom, where a left-cursor scroll bar and a window's close button are featured. SFF 6a5afdab4c

System Requirements:

High quality graphics card with at least DirectX 9.0c. Expect 30-60 fps. For a more optimal experience, we recommend dual monitors (as many as your graphics card and monitor support) with 2 x dual-link DVI outputs for each monitor. For best performance we recommend a minimum of 2 GB of RAM, although we cannot guarantee that any game will run optimally with 1 GB. Multiplayer games will run as fast as 2 GB of RAM will allow. Minimum Requirements: High
