Category:Computer securityQ: What does it mean to give someone a small balloon? I gave a girl a little balloon a couple of years ago when she came to visit me in Los Angeles. Today in Munich, a visitor of mine gave me a little balloon of the same size. What does it mean? Do I just give something to the guys that is attached to the balloon? Or is there some special meaning behind that? A: I'm 100% sure it's supposed to be a compliment and nothing else. Balloons, like flowers, are a simple but universal token of appreciation and I'm sure all the children who received them are delighted to receive them. A
