“FIFA in Motion” is a partnership between EA Sports and technology company, Titan Sports, which will be led by the company’s head of soccer science, John Vidmuntz. The partnership aims to bring together the latest technology, data and player expertise to create a football game that is more immersive than ever. “The goal is for FIFA in Motion to become the best game of soccer. We want to be able to accurately represent the game at its highest level of play,” said Vidmuntz. “In FIFA in Motion, we will not only utilize the game data from real-world players, but we will use the same in-game systems that we have been using on FIFA 17 - but with a completely new gameplay element.” FIFA in Motion is a worldwide exclusive, desktop-focused online experience, where every aspect of gameplay will be driven by the technology that has been developed by Titan Sports using the data from the 22 real-world players. The experience will also include a suite of tools for the millions of people around the world who play soccer online or on their mobile devices. Titan

Sports is a partnership between a range of industry leaders. The company has already developed a FIFA game for mobile devices, and the game will be enhanced by the collaboration of Player IQ, the University of Central Florida, and the University of South Wales. "FIFA in Motion will be open to everyone globally; there are a lot of people with a variety of soccer playing experience, so we want them to engage with the game," Vidmuntz added. "Players of all ages will be able to experience the next generation of soccer technology that has been developed as part of FIFA in Motion." FIFA in Motion is expected to be available on PC via Steam, Xbox One and Nintendo Switch later this year. Abby Martin is a journalist, radio host and host of The Empire Files on RT. Like really, REALLY sick people, they want to make STDs worse. Just like really, REALLY sick people, they keep lying about it. More precisely, they are lying about making STDs worse to prevent people from using condoms, but you get the gist. If you don't, you might die. Because using condoms is for stupid people. The United States is the leading nation of sexually transmitted disease. And we're the first

## **Features Key:**

- Re-live football on a brand new and deeper level: - EA SPORTS introduces "HyperMotion", a brand new player motion-capture technology used by the world's top clubs and top players, to bring you the most immersive experience of football - High-intensity focus with real-life player motion-capture data - Dynamic player intelligence and reactions, created by over 400 player models. - From rough challenges to fine tactics on the tiniest of details, everything is more responsive and reactive thanks to the addition of football muscle, meaning players now react naturally to all aspects of the game, whether it's a quick smash tackle or a quick burst of pace - New backboard simulation that reacts to challenges and allows you to more clearly see even the tiniest of details - New "In-Stadium Experience" cameras that put you inside the action from any camera position in the stadium and clearly see all on-field interactions in crisp, bright daylight - Over 350 hours of new gameplay and training features including Making the Team and weekly training challenges. - The biggest "Matchday"

Check out the first 360° impressions of FIFA 22 now. FIFA 22 is released on Friday, September 28. Our Rating: **REVIEWED ON: Xbox**

**One Version Tested: Xbox One X** Sometimes it's good for a game to grow on you, and sometimes it's good to see what the games used to be like in their glory days.

FIFA 19 was already a fine game, and while it may not have been the most innovative in its present state, it was fine nonetheless.

FIFA 20 felt like a soulless, on-brand number, with a lot of changes built into it at the push of a button. Moving forward, FIFA is returning to its old ways.

On the Xbox One it's doing this in a way that still works for the biggest console on the market, and plays right out of the gate in a modern-day FIFA.

Playing the game was a joy. Whether it was running around like a maniac with the best player on the planet or experiencing the best football in the world, it was still an excellent game.

By embracing it's classic

## **What's new:**

- **OVER 64 MILLION GAMEPLAY UNITS OVER THE LAST SEVEN YEARS - I'm a huge football fan and play FIFA every year, still waiting for the new real players to come in. But the reason I play is the Ultimate Team, mainly because of the card collection. As we've done every year, we have 13 months of testing before September to get your feedback. I'd like to start by saying that we love your feedback and your passion for the game. We've given a slight change to Ultimate Team this year after listening to you. Now, the biggest change to Ultimate Team is the creation of separate game modes for Ultimate Team, card collection and Skill Games. We'll now have a separate game mode for each, based on making it easier to pick which one you want to play. So you'll get a bit more in-game context to any changes to cards. Alongside this, we've changed an important rating in the Transfer Ratings system. We now differentiate between clubs who have enforced changes and clubs who have not - so if you see a nice**

- **REVOLUTIONARY SPEED** - Yes, we know it's funny talking about revolutionary things. We felt it was fitting that the speed of players has been revolutionized this year. The new game mode - "Speed Cam", is really fun and easy to use.
- **NEW ERA GAMEPLAY** - everything has been changed for a great experience like that in FIFA 2017 - we wanted our new gameplay additions this year to not only make you want to play the game, but also to make the game easier, more fluid, and more immersive.
  - **RETRANSMITED KICKS** - this is one of our most requested features, and is now in the game. Retransmitting a player kick can be done during a full-on tackle
  - **TELEPORT CAMERA** - Finally, we've added the Teleport Camera, which will give you more ways to control the pace of the game. In fact, on most games, whilst you're in the Teleport Camera, it's 80/20, 20/80.
